Taguig, PH

Background

A seasoned Web Developer with over three years of experience in the Software Development industry. Proficient in both Front-end/Back-end Web Development. Has a strong grasp of SDLC, basic SEO, and Web Security.

Work Experience

CLOUD PANDA PH INC.

Software Engineer Dec 2018 - June 2021

- Worked as a Full-stack Developer for the company.
- Handled various internal and government projects, in which I've been part of the planning, development and deployment stage.
- Was introduced to Codeigniter 3 framework to create custom websites and CMS.
- Joined in a team that is tasked to create an Online Clearance Certification Management System for a government body who is mandated to officiate businesses surrounding the Laguna Lake.
- Got in a team that utilized React/React native and GraphQL to develop a facility service access app that allows requesting and check-in to services in different Globe facilities.
- Was introduced to some of AWS services such as EC2 and S3, other web matters such as web security, decoupled apps and much more.

TITANIUM SYSTEM TECHNOLOGIES INC.

Software Engineer Apr 2018 - Oct 2018

- Designated under web team which mainly focuses in maintaining Frontend and Back-end systems for an HRIS and Payroll application.
- Was introduced to creating modular application using AngularJS and the essence of APIs.
- Responsible for developing Javascript and ASP codes for various module enhancements and/or bug solutions based on provided requirements.
- Provide test scripts and notes to be used by QA test engineers.
- Revision and/or creation of new SQL scripts for back-end calls and testing.
- Provide support and walk-throughs on implemented system enhancements during QA testing.
- Helped in various ticket investigations and provide necessary solution.
- Engage in daily stand ups, bi-weekly sprint planning and retrospection.

MAXWEB, INC.

Web Developer Intern Apr 2017 - Nov 2017

- Responsible for converting web assets and designs into code using Front-end tools such as (HTML/CSS/Javascript).
- Debug, revise, and implement new designs for some existing website.
- Was able to develop responsive landing pages, email layouts, and a full website.
- Helped in creating assets and contents for client’s web and social media posts.
- Had the opportunity to learn basic SEO and Google Analytics.
- Weekly tracking of client’s keyword rankings on Google.
- Assisted in extracting data from Google Analytics which will be used for monthly SEO reports.
